

RESISTANT. RELIABLE. VISIBLE.

This stake is designed to mark driveways, roads, and traffic areas during snowy conditions — even in harsh weather.

Made of fiberglass, it offers excellent resistance to cold and moisture, along with high visibility thanks to its reflective band.

Its beveled pointed tip makes it easy to insert into snow or soil.

Material:	Pultruded fiberglass (FRP)
Length:	60 in (1524 mm)
Diameter:	5/16 in (7.9 mm)
Color:	Fluorescent orange
Tip:	Beveled point
