**ENHANCE YOUR SIGNS
VISIBILITY**

**PUSH BUTTON
ACTIVATION**

Our Rectangular Rapid Flashing Beacon (RRFB) for Crosswalks are exceptionally visible to drivers both during daytime and night time. Their amber color and rapid flash sequence make them easily noticeable even in challenging weather conditions and low light.

- ▶ 2-lamp LED bar with rectangular lamps on one side
- ▶ Highly visible at long distances and compliant with light signal standards (8.14, Tome V, MTQ)
- ▶ Weatherproof composite housing, durable and ultra-light-weight, 20.6" in length
- ▶ Day and night visibility - intensity controlled by photocell
- ▶ Amber diffusing LED for high visibility
- ▶ Powered by either electrical or solar energy
- ▶ Activation via included push button for a 25-second duration
- ▶ Configurable in systems of 2, 4, or more for advanced signaling
- ▶ MUCTD compliant
